

Sometimes this....

Can look like this!

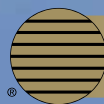

Ingersoll specializes in seedbed solutions.

Whatever seedbed challenges you have, Ingersoll can give you the right tools to get the job done. For every tillage and planting practice, there's an ideal Ingersoll application.

Proprietary alloy steel gives Ingersoll blades unique properties for knifing through tough residue, and resisting strikes from rocks.

Whether you're buying new equipment or replacing worn blades, choose durable, flexible, longer-lasting Ingersoll brand products.
